

Hon. C. R. Bishop said that His Excellency had had so many opinions he did not really know what his actual intention was. The figures presented by Rep. Hayseiden and the remarks of the Minister showed they had been recklessly extravagant. He had not said much, but had voted steadily against these extravaganzas. It was of no use, however, as the House was made up principally of office holders, who had one hand in the Treasury, the other on the taxes. The fact that taxes were high in the United States was no excuse at all. They should strive to keep the taxes down here.

Representative Dole said he had expected to hear some good reason given for the proposed increase, but had heard none whatever. The Appropriation bill was as ridiculous and extravagant an Appropriation bill as ever passed. As there was no emergency to necessitate this increase, he considered it would be better to let the law stand as it is.

The ayes and noes were now taken on the question of indefinite postponement resulting in the defeat of the motion by the following vote:

Ayes—Bishop, Lilikalaui Kaula, Kaula, Wright, Nahale, Dickey, Thurston, Paehole, Dole, Paehole—11.

Noes—The Ministers, (4) Kihelani, Bosh, Kane, Hayseiden, Baker, Pabla, Kananama, Nahinu, Aho, Kaula—14.

Motion was now made to pass the bill the ayes and noes being taken, resulting in favor of the motion, as follows:

Ayes—The Ministers, (4) Kihelani, Bosh, Kane, Hayseiden, Baker, Pabla, Kananama, Nahinu, Aho, Kaula—14.

Noes—Bishop, Lilikalaui Kaula, Kaula, Wright, Nahale, Dickey, Kane, Thurston, Dole, Paehole, Paehole—13.

Reconsideration was moved and lost and at 4:15 p. m. the Assembly adjourned until 10 a. m. next day.

## FOREIGN NEWS.

By the steamer Gaelic news dates have been received to September 30th. Following is a summary:

### EUROPEAN.

New York, Sept. 30.—The Czar has invited General Kaulbars with authority to summon Russian forces to his aid at his own discretion in the event of his terms being refused, and a powerful force is encamped at points on the coast ready for instant embarkation for Bulgarian ports. This looks like defiance of all Europe, but in the face of the divisions and mutual distrust of Russia's different enemies, Russia probably counts on having her own way without a rupture of European peace.

Sofia, Sept. 29.—The Regency has posted notices of election for the Grand Sobranje, which is to elect a successor to Prince Alexander. General Kaulbars, Russian Special Agent, threatens to have the notices removed. The people resent the conduct of Russia in demanding, as the price of the Czar's protection, the raising of the state of siege and freedom for Bulgarian ports. It is believed that a rupture between Bulgaria and Russia is imminent.

The New Free Press says that Bismarck's greatest connivance cannot destroy the elements of antagonism between the Germans and the Slavists. Material interests will assert themselves. Germany will not be willing that Russia shall some day comprise the whole of Asia, and thus be able to place the greatest power in the world at the disposal of the Slavists.

Sofia, Sept. 30.—General Kaulbars to-day received a deputation of prominent Bulgarians, who called upon him to endeavor to induce him to withdraw or modify his circular. The deputation was composed of 114 of the most respected and influential citizens of the principality.

New York, Sept. 28.—A Constantinople dispatch says: Much comment, particularly in Russian and French diplomatic circles, has been excited by the fact that several transports recently touched at the Island of Thessalonica with large supplies and armaments, consigned to agents of the British Government. It is felt that the English occupation and practical annexation of this island will take place at the first sign of Russian occupation of Bulgaria, and all the more uneasiness is felt because of the fact that the British Government, through Mehmet Ali, it was ended by the Sultan. No technical objection could be raised against England's occupation so long as it was sanctioned by the Khedive.

London, Sept. 28.—The Congressional Board of Ministers formally entertained Rev. Henry Ward Beecher and wife this afternoon in Memorial Hall, in Farrington street. Rev. John Mann, President of the Board, presented Mr. Beecher with an address of welcome in behalf of the Congregationalists of England, to which the American clergyman replied in an eloquent and characteristic manner.

The Foreign Office and the United States Legation authorize the statement that the report telegraphed from Ottawa that a new fishery treaty had been effected between the United States and Canada is an entire fabrication, and that no such treaty has been proposed by either Government.

Mexico, Sept. 28.—The condition of King Otto is growing worse. He refuses warm food, but devours great quantities of cold viands. Often in the middle of the night he talks loudly to himself and gesticulates wildly. He insists upon remaining in solitude.

London, Sept. 27.—Lord Churchill has unexpectedly decided to preside at the Conservative demonstration at Dartmouth next Saturday. He will leave Monday for Germany for a fortnight's tour.

The Belfast Riot Commission will commence to sit October 4th.

Edward Hamlin has challenged William Beach to row a race on the Thames for any sum up to \$25,000 and has offered to row him in America or Australia. Hamlin to give Beach \$10,000 in the former case and Beach to give Hamlin \$10,000 in the latter. Beach has declined all challenges.

Smyrna (N. S. W.), Sept. 27.—Advices from Noumea, the capital of New Caledonia, dated September 24, says that the French have formed a military post at Vila Harbor, on Sandwich Island, one of the New Hebrides group, with the intention of establishing the township of Vila.

Waterford, Sept. 27.—The farmers have resolved to prevent any hunting until Father Fahy has been released from prison.

Vienna, Sept. 27.—A woman died to-day in Vienna of cholera. This is the first authentic case reported this year.

Constantinople, Sept. 27.—Turkey's agents abroad report that the peace of Europe is endangered by the present temper of the English and Austrian Cabinets against Russia. The Turkish War Department contemplates the equipment and drilling of 60,000 Turkish horsemen in the same manner that the Russian Cossacks are equipped and drilled.

Belfast, Sept. 26.—Soon after midnight this morning, a crowd assembled and stoned the police in the Shank Hill district. The police fired upon the rioters and a young man named David Moore was shot through the lung and was conveyed to the hospital in a dying condition. Twelve constables were seriously wounded with stones. Many arrests were made.

London, Sept. 26.—The editor of the Morning News of Hall, has received a letter bearing a London postmark and signed "W. of Them," announcing that the Finance Minister had been shot and will set fire to the town at twenty different points simultaneously.

London, Sept. 26.—Advices from New Zealand say that the White Island volcano is in a state of active eruption and that a volume of flame and smoke 100 feet in diameter issues from the crater.

London, Sept. 25.—Christine Nilsson is not yet married notwithstanding the report constantly circulated in American papers to the contrary. I saw a letter from her, dated the 23d inst., in which she said, "We are still waiting for the dispensation of the Pope."

## AMERICAN.

New York, September 30.—The Tribune's cable special from London of September 29th says: The Lord Mayor to-day handed to the American Legation \$10,000 as the first installment of the earthquake fund for Charleston. The legation, which offered to accept American subscriptions for the same object, has received exactly two, one of them British, amounting together to \$40.

San Francisco, September 29.—Reports from all over the republic show that every where heavy rains have fallen, doing great good in forwarding the crops. In this city rains have flooded the streets in many places, necessitating the use of the fire engines to pump out stores. The predicted earthquake has taken place, but the volcano of Colima is again in a state of eruption. A large white cloud overhangs the summit, causing great terror among the inhabitants of the neighboring

villages. This is the third time within a year that this volcano has become active. The eruption is plainly visible from the city of Colima, on the Pacific coast, and unusual meteorological disturbances have been noted in that city.

CRENSWELL (Mh.), September 29.—Rev. J. H. D. Wingfield, missionary bishop of northern California, was to-day elected Bishop of the Diocese of Eastern, to succeed the late Bishop Lay. Dr. Wingfield is the fifth selection that has been made, the others having declined.

New York, September 28.—Ex-President Arthur to-day felt the effect of his journey from New London and was weak and depressed. He remained in bed until late in the day and had but little appetite. He did not sleep well after his trip. Many friends called during the day and evening, and those who desired to him were permitted to do so. He spoke cheerfully of his condition, but admitted that he felt better at the seashore than here, and thought that perhaps he should have remained longer.

Boston, Sept. 28.—A cable dispatch from the Cape of Good Hope, through Dr. Krenner, of Kiel, Germany, announces the discovery of a comet at the Cape on the 26th inst., by Prof. Finlay. Its position September 26th, standard hours Greenwich time, was right ascension 17 hours, 27 minutes, 5.2 seconds; declination, south 26 degrees, 4 minutes, 6 seconds.

New York, Sept. 25.—Richard Butler, Secretary of the American Committee on the Bartholdi Statue of Liberty, announces that the 10th day of October has been decided upon by the Government and the American Committee, for the inauguration of the statue.

WASHINGTON, Sept. 28.—A dispatch from Charleston says: At 1:32 o'clock this afternoon, there was a sharp shock, accompanied by the usual rumbling noise. The shock was violent enough to shake buildings and caused many people to rush into the streets. The continuation of these shocks on the eve of Wiggins' alleged prediction, has a demoralizing effect upon the people here, and many will sleep in the open air to-night. The shock this afternoon lasted six or eight seconds, but it seemed to have been felt only in Charleston and vicinity.

New York, Sept. 27.—The great silver vase, which will cost \$1,000, and which the American Yacht Club offers as an international challenge cup, is being completed, and it is hoped some foreign steam-yacht will challenge for it, and it is also hoped that Baron Arthur de Rothschild will bring over his new steam-yacht next season and race for the cup. He has already had some correspondence with the American Yacht Clubs in regard to it. Yachtsmen are of the opinion that the Royal Clyde Yacht Club will prove a much more formidable adversary than those built after the designs of J. Beaver Webb. The challenges, which come so thick and fast for the American cup, have caused some members of the New York Yacht Club to shake their heads dubiously and talk of increasing the membership dues. The defense of the trophy has cost about \$200,000, but the majority of the members of the club believe the benefit American yachting has derived is more than can be measured by four times that sum.

Worcester, Mass., Sept. 30.—James S. Grinnell nominated John F. Andrews, of Boston, for Governor. The motion was put and carried amid cheers and music by the band. A motion for an informal ballot was lost and Andrews was nominated by an almost unanimous vote.

HARTFORD-ON-THE-SOUND, N. Y., Sept. 30.—A terrific explosion occurred at the Dittmar Powder Works, Baychester, on the Harlem river branch on the New York & New Haven Railroad, at 10 o'clock this morning, resulting in the instantaneous death of four men employed at the factory. The explosion occurred in the packing house, a one-story frame building 20x30 feet.

New York, Sept. 29.—Reports point to an extraordinary attempt on the part of Bismarck to cripple British influence in the present crisis in European affairs, and the center of foreign conquest, the main object of which is the ejection of the British from Egypt and the annexation of that country to the French empire. In the meantime, Sir Drummond Wolff, working hard against French intrigues, has unquestionably improved the English position at Cairo. Russia is also suspected of playing into the hands of France in order to divert English attention from Bulgaria.

WILMINGTON (N. C.), Sept. 27.—There were two earthquakes at Smithville—one at 11:30 last night and the other at 4:50 this morning. No damage was done.

New York, Sept. 27.—General William Booth, Commander-in-Chief of the Salvation Army of the World, who arrived from England last evening, is fully six feet in height. He is round-shouldered and ungainly. "I have come to this country," said Booth, "to personally inquire into the progress made by the Army here, and I expect to go to Toronto to-morrow, where I shall hold a week of prayer. One of the meetings there will last all night. From Toronto I shall go to Hamilton, and then to other cities in Canada. I expect to spend four weeks in the Dominion and six in the principal cities of the States, the last week in New York."

### WORTHY Of Confidence.

AYER'S Sarsaparilla is a medicine that, during nearly 40 years, in all parts of the world, has proved its efficacy as the best blood alterative known to medical science.

SARSAPARILLA (extracted from the root of the genuine Honduras Sarsaparilla) is its base, and its powers are enhanced by the extracts of Yellow Dock and Stillingia, the best of the roots of the United States, and other potent ingredients. It is your blood vitiated by derangements of the digestive and assimilatory functions? Is it tainted by Scrofula? or does it contain the poison of Mercury?

THE leading physicians of the United States, who know the composition of AYER'S SARSAPARILLA, say that nothing else so good for the purification of the blood is within the range of pharmacy.

ONLY by the use of this remedy is it possible for a person who has corrupted blood to attain sound health and prevent transmission of the destructive taint to posterity.

THOROUGHLY effective renovation of the system must include not only the removal of corruption from the blood, but its enrichment and the strengthening of the vital organs.

RELIABLE witnesses, all over the world, testify that this work is better accomplished by AYER'S SARSAPARILLA than by any other remedy.

BLOOD that is corrupted through disease is made pure, and blood weakened through diminution of the red corpuscles is made strong, by AYER'S SARSAPARILLA.

PURIFYING the blood and building up the system require time in serious cases, but benefit will be derived from the use of AYER'S SARSAPARILLA more speedily than from any other remedy.

MEDICINE for which like effects are claimed in the market, under many names, but the only preparation that has stood the test of time, and proved worthy of the world's confidence, is

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all druggists: Price 1;

six bottles for \$5.

### READ THIS!

MERRIS, E. D. HALL & SON, LIMITED. Gentlemen:—I have used your 15in. Steel Breakers for seven years, and your 10in. Breakers for a year, and have been well pleased with them. They are good strong, plow and turn the soil better than any other plow I ever used, and I have used a good many since 1882. I have used the 10in. Steel Breaker for several weeks with only five minutes, and plowed from one acre and a half to two acres a day. I used the same number of animals for the 15in. as for the 10in. Breakers. I plowed up a grove of sumach roots and lots of guava this year and have broken but one or two and a pair of handles. Every one who has used them on Hawaii has been well pleased with them.

Yours truly,  
(Signed) R. A. LYMAN.  
Paohuan.

The above is but one of many letters we have received from all parts of the Islands, speaking in the highest terms of Hall's Steel Breakers and Plows of all sizes.

We have just received, direct from the Moline Plow Co. a large invoice of Plows, making our assortment complete, including Breakers and Plows of all sizes and kinds, Extra Shares, Belts, Coulters, Handles, and Beams.

As, during some years, we have been unable to supply the demand for these goods, we desire to enter into our orders early for what they may need for the coming season. The

### Hall's Steel Furrow Plow

### Questions Answered!!!!

Ask the most eminent physician

Of any school, what is the best thing in the

world for allaying all irritation of the nerves,

and curing all forms of nervous complaints,

giving natural, childlike refreshing sleep

always?

And they will tell you unhesitatingly

"Some form of Hops ! ! !"

CHAPTER I.

Ask any or all of the most eminent physicians:

"What is the only remedy that can be relied

on to cure all diseases of the kidneys and

urinary organs; Bright's disease, diabetes,

retention, or inability to retain urine, and all

the diseases and ailments peculiar to women?"

"And they will tell you explicitly and emphatically "Duché ! ! !"

Ask the same physicians

"What is the most reliable and surest cure

for all liver diseases or dyspepsia, constipation,

indigestion, biliousness, malaria, fever,

ague, &c., and they will tell you

"Mundrake ! ! ! or Dandelion ! ! !"

Hence, when these remedies are combined with others

equally valuable

And compounded into Hop Bitters, such a wonderful

and mysterious curative power is developed, which is

so varied in its operations that no disease or ill health

can possibly resist or resist its power, and yet it is

Harmless to the most frail woman, weakest invalid
